## Technical Data Sheet

### Adioil 81

Adioil 81 is conditioning oil for pull-up leathers.

#### **Description**

Adioil 81 is a blend of conditioning oils which when applied to full grain or corrected leathers before finishing gives excellent pull-up properties. The surface of the leather will darken during plating as a result of the heat generated. The oil is particularly useful to help upgrade leathers. There will be a change of shade on mill dyed leathers because of the darkening properties of the oil.

#### **Typical Properties**

Type	Blended conditioning oil
Weight / gal	7.67 lbs.
Flash Point	>200 F
% Activity	100

#### **Application**

Adioil 81 may be applied either undiluted or diluted with solvent, usually mineral spirits, depending on the absorption rate of the crust leather. The product may be applied by use of either roller coater, or curtain coater. Adioil 81 is not miscible in water.
