

Greenville Colorants Enriched Premium Mulch Colorants offer exactly what our customers request – long-lasting, consistent, and cost effective mulch colorants that far exceed their expectations.

Long-Lasting, "Green" – Colorants

As stated in our name, Greenville Colorants is committed to a "Green" philosophy. Our environmentally friendly products assure you that your customers will come back to you year after year. Whether it's green waste, urban wood, or pallets, let our color make you look good.

These premium products will turn ordinary mulch into long-lasting, vibrant colored mulch. You can select from our Enriched Premium Mulch Colorant Line or we can produce custom colors or match any existing colors you may be using.

Mulch Colorant Safety

We are engineering all of our products to be environmentally safe for both plants and people. Greenville Colorants Enriched Premium Mulch Colorants are water based products. They are non-toxic as well as non-hazardous. They are environmentally friendly and our "Green" products are safe for your customers gardens. They will not hurt flowers, plants, shrubs, or trees. They are safe for animals and children.

Technical Specifications

Greenville Colorants Enriched Premium Mulch Colorants have been engineered to withstand the most severe weather conditions. The super sunny days of summer or the cold days in winter, our colorants are made to stand up to all weather conditions.

It all starts with our premium, high quality pigments which we add to our superior chemical package. We have included a high quality resin system ensuring extreme binding and color enhancers to give you the “pop” you are looking for.

Our combination gives our customers the quality and consistency they are looking for in a mulch colorant.

All of our mulch colorants are quality controlled before leaving our plant. It assures our customers lot to lot consistency with every shipment. Greenville Colorants Enriched Premium Mulch Colorants not only give you quality but will give you the yield you are looking for in a mulch colorant.
